JAPAN.

Report from Kobe—Inspection and fumigation of vessels—Examination of emigrants—Plague—Smallpox at Osaka.

Acting Assistant Surgeon Slade reports, July 29:

Week ended July 25. Three supplemental bills of health were granted to 3 steamers.

There were inspected 119 members of crews and 28 steerage passengers. Four steerage passengers were bathed and disinfected and had their effects disinfected by steam. The number of pieces of baggage steamed was 11 and of bedding 8. Manifests were viséed for 13,228 pieces of freight, amounting to 1,392 tons.

Emigrants examined: Per steamship *Minnesota* for Seattle, passed 4, recommended for rejection 2.

The official returns of infectious diseases for the week show that there were reported in Kobe 2 cases of plague with 3 deaths. The 2 cases of plague reported occurred at same place and in the immediate vicinity of case reported July 18.

The report from Osaka for the week ended July 18 gives no cases nor deaths from smallpox. For the week ended July 25, 1 case of smallpox was reported.

MEXICO.

Report from Coatzacoalcas—Inspection and fumigation of vessels—Sanitary conditions—Mosquitoes.

Acting Assistant Surgeon Thompson reports, August 13:

Week ended August 12. Two steamships were inspected. One of these was fumigated.

No cases of any quarantinable disease have been reported and the health of the port is satisfactory. The rainy season continues and the mosquitoes are more numerous.

Report from Progreso—Yellow fever case at Merida.

Acting Assistant Surgeon Harrison reports:

August 25. One case of yellow fever August 23 at the lazaretto, Merida.

Report from Salina Cruz—Inspection and fumigation of vessels—Outbreak of dengue fever.

Acting Assistant Surgeon McPherson reports, August 16:

During the period, August 1 to 15, inclusive, two steamships cleared from this port for the United States. Both were inspected and fumigated according to regulations on leaving. There is at present an outbreak of dengue fever in this port and neighborhood, and a considerable number of cases have been noted.
